

First we at the HOA want to thank everyone who voted on the White trim option. Participation in all homeowner options are important and we are glad for all the opinions. Yesterday was the last day of voting. White trim was voted in by a large margin. This is an OPTION to paint your shed trim color white, the Hunter Green is still an approved trim color.

Please note I talked to Brandon at the Sherwin Willams paint store at 9412 N Newport Hwy Ste A, Spokane Wa.

This is a special formulated color for Sturdy Built Sheds.

The cost is \$67.99 a gallon, He is giving everyone 25% off a gallon we will each pay \$55.00 a gallon. Remember to say It is a special sturdy built color formula and that you are from Deer Park RV Resort.

The paint color is Sparkling Snow, it is a super paint and he did say it would take at least 2 coats if not using primer to cover the green!!

Do not use any other paint color!!!

Again thanks for your participation  
your Deer Park HOA
